1.Applicant's election of Group I, claims 7, 8 and 11 in the reply filed on May 25, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2.A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 7, 8 and 11 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 6, 8 and 7 of prior U.S. Patent No. 5,982,969. This is a double patenting rejection.

Note that although the wording of the instant claims is slightly different than that found in previously issued USP -969, it is rather clear that the same invention is being recited.

3.The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The art cited on the accompanying 892 form is cited as of interest.
